

After decades of transforming lives in his Montana clinic and training thousands of doctors nationwide, Dr. Harris paused patient care to focus on teaching. But his heart has always been a one-on-one transformation.

For the first time in years, Dr. Marc Harris, ND is opening his doors to just 20 exclusive patients for a revolutionary Concierge Health Program — giving you the chance to receive his expertise without waiting lists or gatekeepers.

>>>>

In 2026 I'm returning — not to run a large clinic, but to personally guide a select group of patients toward full health, healing, and longevity.

Here's what you get:

- Weekly email access to me — ask questions and get custom protocols.
- Monthly live Zoom calls in a small group setting with me moderating live Q&A.
- Two in-person visits during the year — either at your residence or at one of my national speaking events (you cover travel expenses).
 - Personalized nutrition & supplements delivered directly — you only pay for the actual supplements and medicine used.
 - Advanced treatments like stem cells or injectables included (you pay for the medicine, while administration is covered).
 - I will make a house call to your home to listen, check your single nucleotide polymorphisms and then send you a remedy.

This is only available to my clients. Investment: \$35,000 for the year (or \$40,000 with payment plan).

The 1st 20 patients in 2026 lock in a renewal option for subsequent years ahead of new applicants. If you aren't one of the first 20 people I can put you on a waitlist.

This is your moment — space is extremely limited and once all 20 spots are filled for 2026, doors close until 2027.

Please respond to the secure email DocMarch@proton.me

Looking forward to helping you thrive,
Marc Harris, ND

Note: Travel costs, supplements and medicines are separate. The \$35K covers your access, guidance, program services and treatments' administration.
